To Whom It May Concern,

I am happily writing this letter of reference in support of Jennifer Logan. I have been a nurse at Albany Medical Center's vascular surgery unit from 2015 until present. Jennifer Logan has been my Nurse Manager since I started.

As a Nurse Manager Jenn continuously goes above and beyond for her employees. She is always supportive and encouraging. She stays up to date with policies, procedures, protocols, and any new information that changes, which was daily at one point of this past year. In doing so, she keeps her team up to date and rarely misses a beat. She works harder than anyone I know, which is why our unit is so successful. She conveys a positive and healthy work environment. Jenn holds all the qualities of a good leader and practices them daily managing two vascular units. She is always respectful with patients, staff, employees, and her superiors. One of her many qualities I admire most is her advocacy. She takes the time to listen and will do everything she is capable of to advocate for what is right for patients and employees.

I have advanced and excelled in my nursing career with great thanks to her encouragement, support, and guidance. I attribute my success to her. My experiences with Jenn have been immensely rewarding, she is one of the reason I enjoy my work so much. She is an awesome Nurse Manager and role model for all of us. I cannot thank her enough for everything she has done for me personally and for us as a unit. We would not be as successful as we are as two units without her leadership and I recommend her without reservation.

Sincerely,

*Leah Cirillo RN*
